PERFORMANCE INDEX SCORE

The Performance Index Score reflects the achievement of every tested student. The score is a weighted average of all tested subjects in grades 3, 4 and 6. The most weight is given to the advanced students (1.2), and the weights decrease for each performance level. This creates a scale of 0 to 120 points, with 100 being the goal. Looking at the Performance Index Score over time shows trends in district achievement.

YOUR DISTRICT'S ASSESSMENT RESULTS OVER TIME

Presenting statewide assessment results over time is another way to see progress and improvement in your district. There were three new assessments used this year that are not listed here because there are no historical data to show: the Grade Three Reading Achievement Test and the Ohio Graduation Tests in reading and mathematics. All students in the district for a full academic year are included in the results.
